Integration

Language

English - Advanced

Sinhala - Native

Professional Experience

Software Engineer specializing in full-stack development and enterprise system architecture. Proven experience delivering scalable applications for government and commercial clients. Strong foundation in modern technologies, database design, and agile development practices.

Major Projects

Facility Cost Management System - District Secretariat Gampaha

Developed enterprise facility management system for government offices managing 50+ facilities. Implemented automated utility meter tracking, cost allocation algorithms, anomaly detection, real-time analytics dashboards, and integrated email notification system using PHP and MySQL.

CR Mobile - E-Commerce Platform

Developed full-stack e-commerce platform for mobile phone retail. Implemented inventory management, product categorization, image uploads, stock tracking, customer testimonial system with TikTok/YouTube integration, admin dashboard with sales analytics, and responsive UI with modern design elements.

Volunteer Experience

Event Coordinator

ESOFT Metro Campus

Successfully executed outstanding events in collaboration with Pearson BTEC Level 5 HND in Computing program, demonstrating leadership and organizational skills.

Extra -Curricular Activies

School Cricket Team (U-15) • Inter-House Champion • Cricket & Volleyball • School Prefect

Professional Attributes

Responsible
Organized
Team Player
Quick Learner
Detail-Oriented
Self-Motivated
Adaptable
Reliable
